1. Going Concern

These condensed consolidated interim financial statements have been prepared on a going concern basis which contemplates that Galantas Gold Corporation (the "Company") will be able to realize assets and discharge liabilities in the normal course of business. In assessing whether the going concern assumption is appropriate, management takes into account all available information about the future, which is at least, but is not limited to, twelve months from the end of the reporting period. Management is aware, in making its assessment, of material uncertainties related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. The Company's future viability depends on the consolidated results of the Company's wholly-owned subsidiary Cavanacaw Corporation ("Cavanacaw"), the ability of the Company to obtain future financing and to recover its investment in Omagh Minerals Limited ("Omagh"). Cavanacaw has a 100% shareholding in Omagh which is engaged in the acquisition, exploration and development of gold properties, mainly in Omagh, Northern Ireland.

As at December 31, 2001, studies performed on Omagh's mineral property confirmed the existence of economically recoverable reserves. As at July 1, 2007, the mineral property was in the production stage and the directors believe that the capitalized development expenditures will be fully recovered by the future operation of the mine. The recoverability of Omagh's capitalized development costs is thus dependent on the ability to secure financing, future profitable production or proceeds from the disposition of the mineral property. While the Company is expending its best efforts in this regard, the outcome of these
matters can not be predicted at this time.

As at June 30, 2012, the Company had a deficit of $25,679,495 (December 31, 2011 - $25,571,040). Management is confident that it will be able to secure the required financing to enable the Company to continue as a going concern. However, this is subject to a number of factors including market conditions. These condensed consolidated interim financial statements do not reflect adjustments to the carrying values of assets and liabilities, the reported expenses and financial position classifications used that would be necessary if the going concern assumption was not appropriate. Such adjustments could be material.

2. Incorporation and Nature of Operations

The Company was formed on September 20, 1996 under the name Montemor Resources Inc. on the amalgamation of 1169479 Ontario Inc. and Consolidated Deer Creek Resources Limited. The name was changed to European Gold Resources Inc. by articles of amendment dated July 25, 1997. On May 5, 2004, the Company changed its name from European Gold Resources Inc. to Galantas Gold Corporation. The Company was incorporated to explore for and develop mineral resource properties, principally in Europe. In 1997, it purchased all of the shares of Omagh which owns a mineral property in Northern Ireland, including a delineated gold deposit. Omagh obtained full planning and environmental consents necessary to bring its property into production.

The Company entered into an agreement on April 17, 2000, approved by shareholders on June 26, 2000, whereby Cavanacaw, a private Ontario corporation, acquired Omagh. Cavanacaw has established an open pit mine to extract the Company's gold deposit near Omagh. Cavanacaw also has developed a premium jewellery business founded on the gold produced under the name Galántas Irish Gold Limited ("Galántas").

As at July 1, 2007, the Company's Omagh mine began production.

The Company's operations include the consolidated results of Cavanacaw and its wholly-owned subsidiaries Omagh and Galántas.

The Company’s common shares are listed on the TSX Venture Exchange (the "Exchange") and London Stock Exchange AIM under the symbol GAL. The primary office is located at 360 Bay Street, Suite 500, Toronto, Ontario, Canada, M5H 2V6.

3. Basis of Preparation

(a) Statement of compliance

The Company applies International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board (“IASB”) and interpretations issued by the International Financial Reporting Interpretations Committee (“IFRIC”). These condensed interim consolidated financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. Accordingly, they do not include all of the information required for full annual financial statements required by IFRS as issued by IASB and interpretations issued by IFRIC.

The policies applied in these condensed interim consolidated financial statements are based on IFRSs issued and outstanding as of August 17, 2012, the date the Board of Directors approved the statements. The same accounting policies and methods of computation are followed in these condensed interim consolidated financial statements as compared with the most recent annual financial statements as at and for the year ended December 31, 2011. Any subsequent changes to IFRS that are given effect in the Company’s annual financial statements for the year ending December 31, 2012 could result in restatement of these condensed interim financial statements.
